

RWANDA TVET BOARD
COMPETENCY-BASED ASSESSMENT
[SUMMATIVE ASSESSMENT]

Program: SOFTWARE DEVELOPMENT | **Level:** 5 | **Total Marks:** 100

Module: Python Programming Fundamentals | **Date:** 2026-05-25 | **Time:** 3 Hours

Name: _____ Index No: _____ Class: _____

SECTION A: TRUE / FALSE

Answer True (T) or False (F).

- 1 Virtual environment has no role when preparing python environment. (2 marks)

Answer: **True** **False**

- 2 Looping Statements has no role when writing basic python program. (2 marks)

Answer: **True** **False**

- 3 Apply object-driven in python is a key concept when applying object-driven in python. (2 marks)

Answer: **True** **False**

SECTION B: MULTIPLE CHOICE

Choose ONE correct answer and circle the letter.

- 4 How is Python Function correctly used when preparing python environment? (2 marks)

A. Object-Oriented Programming
B. Python Function
C. Python interpreter
D. Virtual environment
Answer: _____

- 5 Which approach to Python interpreter is most effective when preparing python environment? (2 marks)

A. Python interpreter
B. Python Function
C. Object-Oriented Programming
D. Virtual environment
Answer: _____

- 6 How is Python interpreter correctly used when writing basic python program? (2 marks)

A. Python Variables
B. Python Data Types
C. Python interpreter
D. Arithmetic Operators
Answer: _____

- 7 How would you use Lambda function to writing basic python program? (2 marks)

A. Python interpreter
B. Lambda function
C. Python Variables
D. Python Data Types
Answer: _____

8 How would you use Apply object-driven in python to applying object-driven in python? (2 marks)

- A. None of the above
- B. None of the above
- C. Apply object-driven in python
- D. None of the above

Answer: _____

9 Which approach to Apply object-driven in python is most effective when applying object-driven in python? (2 marks)

- A. None of the above
- B. None of the above
- C. Apply object-driven in python
- D. None of the above

Answer: _____

SECTION C: MATCHING

Match each term in Column A with Column B.

1 Match each term in Column A with its correct description in Column B. (5 marks)

0

Column A (Terms)	Column B (Descriptions)
1. An IDE	A. is a software application that provides comprehensive facilities for
2. A Python virtual environment	B. is a tool that helps you create an isolated

Answers: 1.____ 2.____ 3.____ 4.____

1 Match each term in Column A with its correct description in Column B. (5 marks)

1

Column A (Terms)	Column B (Descriptions)
1. A function in Python	A. is a block of reusable code that performs a specific task. It is
2. What	B. is a Lambda Function?
3. A series	C. is a data frame column. You can manipulate all of the values in a series by

Answers: 1.____ 2.____ 3.____ 4.____

1 Match each term in Column A with its correct description in Column B. (5 marks)

2

Answers: 1.____ 2.____ 3.____ 4.____

SECTION D: OPEN-ENDED

Answer ALL questions. Write in the spaces provided.

1 Design a solution using Object-Oriented Programming to preparing python environment. (11 marks)

3 Explain your decisions.

1 Analyze the importance of Python Package in preparing python environment. Identify **(8 marks)**
4 advantages and limitations.

.

1 Define Python syntax and explain its importance in preparing python environment. **(8 marks)**

5

.

1 Define Python Data Types and explain its importance in writing basic python program. **(8 marks)**

6

.

1 Explain the role of Arithmetic Operators when writing basic python program. **(8 marks)**

7

.

1 Analyze the importance of Conditional Statements in writing basic python program. **(8 marks)**

8

Identify advantages and limitations.

.

1 Analyze the importance of Apply object-driven in python in applying object-driven in **(8 marks)**

9

python. Identify advantages and limitations.

.

2 Explain the role of Apply object-driven in python when applying object-driven in python. **(8 marks)**

0

.
