

RWANDA TVET BOARD
MARKING GUIDE — CONFIDENTIAL
[FORMATIVE ASSESSMENT]

Module: Backend Application Development Using Node JS | **Program:** SOFTWARE DEVELOPMENT |
Level: 4 | **Total Marks:** 30

Q 1.	Node.js is essential when developing RESTFUL APIs with Node JS.	(1 marks)
Answer: True Marking guide: Award 1 marks for correct and complete answer.		
Q 2.	Demonstrate how to use Express when developing RESTFUL APIs with Node JS. Provide a step-by-step explanation.	(7 marks)
Answer: Key steps: 1. You are requested to discuss the following: 2. Provide your findings and write them on paper. 3. Present the findings to the whole class Commands: 7. Promises ES6: Introduces Promises, providing a cleaner way to handle asynchronous Award marks for correct explanation of Express in context. Marking guide: Award 7 marks for correct and complete answer.		
Q 3.	How would you correctly apply MongoDB when developing RESTFUL APIs with Node JS?	(1 marks)
Answer: B Marking guide: Award 1 marks for correct and complete answer.		
Q 4.	Evaluate the effectiveness of Mongoose when developing RESTFUL APIs with Node JS. Justify with examples.	(5 marks)
Answer: Key steps: 1. Read key reading 1.4.1 2. As backend developer who has trained in database development you are requested to 3. Apply safety precautions. Commands: <code>const express = require('express');</code> <code>const app = express ();</code> Award marks for correct explanation of Mongoose in context. Marking guide: Award 5 marks for correct and complete answer.		
Q 5.	What is the main purpose of JWT when developing RESTFUL APIs with Node JS?	(1 marks)
Answer: D Marking guide: Award 1 marks for correct and complete answer.		
Q 6.	Demonstrate how to use bcrypt when developing RESTFUL APIs with Node JS. Provide a step-by-step explanation.	(5 marks)
Answer: Key steps: 1. You are requested to discuss the following: 2. Provide your findings and write them on paper. 3. Present the findings to the whole class Commands: 7. Promises ES6: Introduces Promises, providing a cleaner way to handle asynchronous Award marks for correct explanation of bcrypt in context. Marking guide: Award 5 marks for correct and complete answer.		
Q 7.	Match each term in Column A with its correct description in Column B.	(3 marks)

Answer: 1. Node.js | 2. A backend application | 3. methods. It | 4. An object in JavaScript

Marking guide: Award 3 marks for correct and complete answer.

Q 8. Explain how RESTful API works in the context of developing RESTFUL APIs with Node JS. **(5 marks)**

Answer: Key steps: 1. Read key reading 1.4.1 | 2. As backend developer who has trained in database development you are requested to | 3. Apply safety precautions. Commands: `const express = require('express');` | `const app = express ();` Award marks for correct explanation of RESTful API in context.

Marking guide: Award 5 marks for correct and complete answer.

Q 9. Middleware directly affects the security of developing RESTFUL APIs with Node JS. **(1 marks)**

Answer: True

Marking guide: Award 1 marks for correct and complete answer.

Q 10. Which of the following correctly defines Authentication? **(1 marks)**

Answer: A

Marking guide: Award 1 marks for correct and complete answer.
